III. Description of Programs and Potential Disclosure of Information Claimed as Confidential Business Information (CBI) to Contractors

EPA's Office of Transportation and Air Quality (OTAQ) has responsibility for protecting public health and the environment by regulating air pollution from motor vehicles, engines, and the fuels used to operate them, and by encouraging travel choices that minimize emissions. In order to implement various Clean Air Act programs, and to permit regulated entities flexibility in meeting regulatory requirements (e.g., compliance on average), we collect compliance reports and other information from them. Occasionally, the information submitted is claimed to be confidential business information (CBI). Information submitted under such a claim is handled in accordance with EPA's regulations at 40 CFR part 2, subpart B and in accordance with EPA procedures, including comprehensive system security plans (SSPs) that are consistent with those regulations. When EPA has determined that disclosure of information claimed as CBI to contractors is necessary, the corresponding contract must address the appropriate use and handling of the information by the contractor and the contractor must require its personnel who require access to information claimed as CBI to sign written non-disclosure agreements before they are granted access to data.

In accordance with 40 CFR § 2.301(h), we have determined that the contractors, subcontractors, and grantees (collectively referred to as "contractors") listed below, in addition to

those listed in a previous Federal Register Notice (77 FR 217, November 8, 2012, pp. 66977-66978), require access to CBI submitted to us under the Clean Air Act and in connection with the Mandatory Greenhouse Gas (GHG) Reporting Rule [40 CFR part 98, subparts A (general registration and reporting provisions) LL, and MM], as well as various OTAQ programs related to fuels, vehicles, and engines (40 CFR parts 79 and 80) and we are providing notice and an opportunity to comment. OTAQ collects this data in order to monitor compliance with Clean Air Act programs and, in many cases, to permit regulated parties flexibility in meeting regulatory requirements. For example, data that may contain CBI is collected in order to register fuels and fuel additives prior to introduction into commerce and to certify engines. Certain programs are designed to permit regulated parties an opportunity to comply on average, or to engage in transactions using various types of credits. For example, OTAQ collects information about batches of gasoline that refiners produce in order to ensure compliance with reformulated gasoline standards. We are issuing this *Federal Register* notice to inform all affected submitters of information that we plan to grant access to material that may be claimed as CBI to the contractors identified below on a need-to-know basis.

Under Contract Number EP-C-11-007, SRA International, Inc., 4300 Fair Lakes Court, Fairfax, VA 22033, and its subcontractor, Ecco Select, 1301 Oak St #400, Kansas City, MO 64106, provide report processing, program support, technical support, and information technology services that involve access to information claimed as CBI related to 40 CFR part 79, 40 CFR part 80, and 40 CFR part 98 subparts A, LL, and MM. Access to data, including information claimed as CBI, will commence on [INSERT DATE 10 DAYS AFTER PUBLICATION IN THE FEDERAL REGISTER] and will continue until December 31, 2015.

If the contract is extended, this access will continue for the remainder of the contract without further notice.

Parties who wish further information about this *Federal Register* notice or about OTAQ's disclosure of information claimed as CBI to contactors may contact the person listed under FOR FURTHER INFORMATION CONTACT.
